Strategic Focus

Access to Care

The College will improve access to equitable, competent care by:

- Expanding the recognition of acceptable international training and practice, to license more physicians.
- Growing physician extender programs, to increase the number of Associate Physicians and Physician Assistants.
- Facilitating multi-jurisdictional licensing agreements, such as the Atlantic Registry, to promote mobility of physicians and postgraduate trainees.
- Supporting physicians trained outside of Canada through the Welcome Collaborative orientation program, to advance long term success and retention.
